Vice President

Re: Basics.fst

The Grey Bruce Health Unit (GBHU), Food Safety Committee has reviewed a copy of BASICS.fst Food Safety Training in Canada. The course meets the minimum requirements of the Grey Bruce Health Unit's Food Safety Certification protocol and will be recognized by the Health Unit as a Food Handler Certification Course. Thus participants successfully passing the BASICS.fst exam will be recognized by GBHU as Certified Food Handlers, providing they show documented proof of certification.

Should you have any questions, please contact this office.

Yours sincerely,

A handwritten signature in black ink, appearing to read "C. Munn", with a long horizontal flourish extending to the right.

Christopher J. Munn, B.A., CPHI(C)
Manager, Health Protection CPHI(C)
