

TrainCan Inc. - Train the Trainer Requirements

At this time TrainCan does not have a formal in house train the trainer program.

The **first requirement** to become a registered trainer remains a 90% or greater mark on our ADVANCED.fst® manager level training exam. Once this is completed successfully an application can be made for trainer status using the application form found at www.traincan.com.

With the application TrainCan requires supplementary information including completed courses, experience and professional documentation to support qualification as a registered TrainCan trainer.

If this supporting information is deemed not sufficient by TrainCan Inc. then an additional trainer training program is required.

TrainCan currently recognizes train the trainer programs from the following sources with approved documentation:

-
Sysco Canada - train the trainer program
Surety Food Safety - train the trainer program
ServSafe online - train the trainer program
NFSTP - train the trainer program
Geometrix Global – train the trainer program
Langevin Learning Services – Instructional Techniques for New Instructors: Becoming A Dynamic Trainer
MAPAC(Quebec Agricultural Ministry) – Trainer Designation

We also recognize the following professional designations **as not requiring** a train the trainer program.

Public Health Inspector or Equivalent
Teacher(high school, college, university)
Registered Dietitian or Nutritionist
Individuals Employed as a Corporate Trainers in Food Related Organizations

Please contact Mary Sue Farache, Supervisor Course Administration with any questions. Ph: 416 447 9588 ext: 275 mfarache@traincan.com.
