Course: **Workplace Hazardous Material Information System (WHMIS)**
WHMIS is a hazard communication system designed to ensure workers using hazardous materials, also known as controlled products, have all the necessary information to safely handle, store and dispose of these materials.

Course Objectives: *The primary objective for the online WHMIS course is to provide course participants with the skills necessary to access and apply the information needed to protect their health and safety while working with WHMIS controlled products.
This course meets the legislated worker training requirements for all Federal and Provincial workplaces in all provinces and territories.*

Who's it for: The course is intended for any manager or employee that comes in "close proximity" to a potentially dangerous situation or hazardous material(s).

Evaluation

Process: At the end of each module, there is a quiz that each course participant must challenge and successfully complete with a passing grade before continuing to the next content module.

Certificate: Once completed a temporary certificate can be printed and a WHMIS wallet card will be mailed to you within 3 weeks.

Cost: **\$38.95** (order code: WH121)

Important! Employers will have to supplement this training with worksite specific training to ensure that their workers are aware of and understand the hazards associated with the controlled products that they use and how to safely work with them.

Course Content:

Unit 1 - Intro to WHMIS
Unit 2 - Product Labels
Unit 3 - Hazard Symbols
Unit 4 - Material Data Safety Sheets
Unit 5 - WHMIS Education- Roles and Responsibilities
Unit 6 - Exemptions and Restricted Applications

Course Duration:

The course is a self paced online program. Course duration will depend on the individual participant and their prior knowledge of the subject matter. On average, the course will take between 2-5 hours to complete.
